CORE COMPETENCIES

Intelligence Operations: Providing innovative solutions to complex intelligence challenges, ensuring readiness and operational excellence.

Cybersecurity and Cyber Operations: Strengthening cyber defenses and supporting critical operations to safeguard sensitive systems and data.

Space Operations: Strategic guidance on development, strategy, and operations in the evolving space domain.

Leadership Development: Tailored seminars (4 hours to multi-day) to enhance leadership and team cohesion.

High-Performance Coaching: Individualized coaching for executives to build confidence, overcome challenges, and achieve goals.

Professional Speaking: Inspiring keynotes on team building, problem-solving, and national security.

COMPANY OVERVIEW

S2-Stalker Solutions, a certified Service-Disabled Veteran-Owned Small Business (SDVOSB), is a trusted provider of high-impact professional services specializing in leadership development, executive coaching, professional speaking, and national security consulting. Founded by retired U.S. Marine Scott H. Stalker, the company draws upon over three decades of distinguished military service and strategic leadership experience across some of the most critical defense organizations in the world, including the Defense Intelligence Agency, U.S. Cyber Command, National Security Agency, and U.S. Space Command.

At S2-Stalker Solutions, we understand the challenges of navigating complex environments, whether in national security, corporate settings, or dynamic organizational landscapes. With a foundation built on discipline, resilience, and a commitment to excellence, we offer tailored solutions designed to transform individuals and organizations.

Our services focus on developing adaptive leaders capable of driving innovation, fostering collaboration, and achieving mission-critical objectives. Whether working with executives seeking to refine their strategic vision, organizations striving to enhance operational efficiency, or teams aiming to strengthen cohesion and communication, S2-Stalker Solutions delivers measurable, sustainable results.

CAPABILITIES STATEMENT

PAST PERFORMANCES

Past Performance #1: National Security Consultant | Business Development Strategist | Executive Advisor

- **Agency/Business Name:** JCTM
- **Period of Performance:** 1 November 2023 – Present
- **POC:** Mr. Audie Cooper
 - **Phone:** 252-571-8678
 - **Email:** acooper@jctm.us
- **Description of Services:** We provided comprehensive consulting services to JCTM, leveraging a distinguished background in Space, Cyber, Intelligence, and Special Operations to drive mission success and business growth in the national security and defense sectors. Our contributions focused on developing innovative strategies, fostering client relationships, and navigating the complexities of federal procurement to secure high-value government contracts. As a trusted Special Advisor to the CEO and honorary Board Member, we delivered high-level guidance that aligned JCTM's operational objectives with its organizational goals, ensuring scalability and sustained success. We led efforts in client engagement, identifying opportunities, mitigating risks, and delivering tailored solutions to meet the evolving needs of government agencies. Our work facilitated cross-functional collaboration, helping JCTM bridge the gap between technical innovation and strategic implementation. By applying a results-driven approach, we enabled JCTM to build competitive advantages, achieve compliance in complex regulatory environments, and solidify its position as a key player within the federal marketplace. Through advising C-suite executives, leading capture management efforts, and shaping long-term growth strategies, we delivered measurable, impactful outcomes that directly supported JCTM's mission and objectives.

Past Performance #2: Consultant for Space and Cyber Business Development | Strategic Advisor

- **Agency/Business Name:** i3
- **Period of Performance:** March 2024 – Present
- **POC:** Mr. Jake Hood
 - **Phone:** 703-582-3536
 - **Email:** john.hood@i3-corps.com
- **Description of Services:** We supported i3 in advancing their Space Force, Space Command, and Department of Defense Space & Cyber business development initiatives. Leveraging our extensive expertise in space, cyber, and defense operations, we played a critical role in identifying and pursuing strategic opportunities that drove growth and enhanced mission-critical capabilities within these domains. A key contribution was leading efforts to integrate and promote augmented reality (AR) and virtual reality (VR) technologies to support DoD training, operational readiness, and mission planning. By demonstrating the transformative potential of AR/VR tools, we facilitated i3's engagement with key defense stakeholders, helping them showcase innovative solutions to modernize and enhance warfighter capabilities. Additionally, we orchestrated impactful participation in major industry events, including symposiums, and cultivated relationships with high-level government stakeholders. Our efforts connected i3 directly with senior decision-makers, including Space Force General Officers, effectively positioning the company as a forward-thinking partner in defense innovation. Through strategic client meetings, thought leadership in emerging technologies, and fostering critical partnerships, we strengthened i3's market presence and competitive advantage within the national security community. Our work advanced i3's AR/VR initiatives and broader technological offerings, paving the way for securing high-value government contracts and establishing a foundation for long-term success in the evolving space and cyber domains.

PAST PERFORMANCES

Past Performance #3: Consultant for Business Development and Strategic Client Engagement | Communications and IT Support Advisor

- **Agency/Business Name:** CommIT
- **Period of Performance:** 1 November 2023 – Present
- **POC:** Mr. Michael Punkosdy
 - **Phone:** 843-822-2582
 - **Email:** michael.punkosdy@commitent.com
- **Description of Services:** We provided consulting services to support CommIT's business development initiatives and client engagement efforts, focusing on delivering cutting-edge communications and IT solutions to the Department of Defense (DoD) and other government clients. Our work encompassed strategic support for critical projects with organizations such as the Space Force, Marine Corps, and other key defense stakeholders. Leveraging our extensive experience in the defense and technology sectors, we played a pivotal role in identifying new opportunities, fostering meaningful relationships with government clients, and positioning CommIT as a trusted provider of mission-critical IT and communications services. We facilitated discussions with senior leaders to align the company's capabilities with the evolving needs of DoD agencies. A key contribution was our support of CommIT's business development efforts at the Modern Day Marine Symposium. We facilitated strategic client engagement, showcased the company's expertise to Marine Corps leadership and other defense stakeholders, and promoted innovative solutions. These efforts expanded CommIT's network within the defense community and identified opportunities to address the unique IT and communications needs of the Marine Corps and related agencies. In addition to driving client engagement, we provided strategic insights and guidance to shape CommIT's approach to modern defense operations. Our contributions included:
 - Enhancing CommIT's presence at key industry events and symposia, such as the Modern Day Marine Symposium, to showcase the company's expertise in communications and IT solutions.
 - Facilitating direct engagement with high-level decision-makers to strengthen partnerships and expand the company's footprint within the DoD.
 - Supporting CommIT in securing and delivering innovative solutions that address the operational requirements of the Space Force, Marine Corps, and other critical defense agencies.

By aligning business development efforts with the specific needs of government clients, we helped CommIT build competitive advantages, achieve operational excellence, and establish a foundation for long-term growth in the federal marketplace.
